New Software Consultant Joins Accellis

Garfield Heights, OH (June 5, 2007) - Accellis Technology Group welcomes Maria Shust to its growing team of technology consultants. Maria will be providing Cleveland lawyers with practical software solutions, support and training to improve office efficiencies and overall profitability.

Maria was chosen for the position as a Software Consultant due to her extensive experience with Cleveland law firms and legal software applications including Timeslips, TimeMatters, PCLaw, Amicus and QuickBooks. As a paralegal for the past eight years, Maria's practical understanding of legal software will prove to be an invaluable resource to Accellis clients.

"I can understand the role of the support staff in the law office because I have been there. By my being able to communicate from both worlds, legal and technical, I am equipped to provide valuable services, which is very exciting to me. Bridging both worlds so that we can succeed together," said Maria.

Accellis Technology Group is a full-service consulting, managed network services and software solutions firm delivering first rate technology solutions to its network of legal, healthcare, financial, real estate, retail and professional clients in Ohio and throughout the country.
